

## **A bit of math**

Total of 69 weeks is really  $69 \times 7$  years or 483 years.

Historians tell us it was on March 14, 445 BC that King Artaxerxes gave his command.

483 years later (Jewish years of 360 days each, so 173,880 days later) on April 6, 32 AD Jesus rode into Jerusalem on the colt of a donkey.

**To.The.Day.**
